The Big Conversation

We are back with the 11th edition of The Big Conversation newsletter. Thank you, once again for your continued support. The past fortnight has been busy for the team as we have been collating all of your feedback. We have shared your thoughts and views at several senior leader events whilst continuing to have conversations with all of you at our roadshows and events. Read on to find out more.

It was a great success, and we thank everyone who participated. Thank you so much for having us at the event it was a great day.

We are also looking forward to sharing your feedback and hearing more ideas for our strategy, at the HSCP nurse leaders' forum on the 18th of October.

THE BIG CONVERSATION ROADSHOWS

This week we visited the RAH hospital. It was a busy day for staff however we managed to have some very meaningful and interesting conversations with a couple of nurses. Discussions focused on the value that more flexible shift patterns and less paperwork would have on patient centred care and our professional experiences. Thank you very much for taking the time to come and talk to us.

Our next roadshow will be held in the **QEUI on the 20th of October**. We look forward to chatting to you all then.

We have one available date remaining for our Roadshow - **Wednesday 1st November 1:30 to 15:30**. If you would like us to come to your workplace, please let us know at:

Moving Forward – What's next?

We are now beginning to reach the final stages of our strategy development. Writing and design groups have been formed and are busy working to develop an effective strategy from all of your conversations. However, we assure you that this is not the end of The Big Conversation. The opportunities that this project has created for staff to engage with each other are too valuable to lose. We are working on the next stages of our discussions for you all but in the meantime please keep sending us any more feedback, talking to your teams and chatting with us at roadshows.

Let's keep The Big Conversation going!

Inspired by the brilliant idea of our one of the nurses at our clinical leaders session we have created a slide deck with some of our resources from The Big Conversation. Feel free to print these off and use them within your wards, to inspire conversations or however you would like:

It's great to hear from the Champions on why this work is important to them; and we encourage you to take a moment to listen as well.

We also encourage you to record and forward your own video and/or voice note to us, so that we can share why this work is important to you with your nursing and midwifery colleagues.

Lastly, there's also a PowerPoint presentation available for all staff to access which provides the latest questions and key themes in addition to the initial slides which give detailed information on the purpose and aim of *The Big Conversation*. You can access the presentations at the following links:
