

# #StartTheConversation

In partnership with Macmillan

## Fantastic Funding News!

We are thrilled to hear that the ACP Programme will receive funding for a further 2 years, we cannot thank all 6 HSCPs enough for making this possible - we look forward to working with you and taking ACP to another level from April 2022!

We would like to acknowledge Macmillan Cancer Support for funding the ACP Programme over the last 2 years, your support and commitment to the project has been outstanding. With your help we have been able to #StartThe Conversation with countless people.

## Good News Stories...

### Glasgow City HSCP ACP Care Homes Project

We are delighted that the Care Homes Pilot Project in North West Glasgow is about to start in some of our Nursing Homes.

With support from Dr Jude Marshall and members of the Care Home Nursing Team, staff will receive training on the importance of ACP and how to #StartTheConversation with residents and their families.

Good luck to everyone!

Focus  
on...

It's lovely to see the wide variety of creative work being developed across Scotland and the UK on Anticipatory Care Planning, alongside a collective movement to encourage people to prepare for the future using a range of future planning tools. It is also comforting to see the work carried out by a number of organisations, especially online, to support those experiencing grief and loss over the last year.

Throughout 2021, The ACP Team have linked in to a number of events and campaigns to promote Future Planning and remember those we have lost.

### Power of Attorney Day

Power of Attorney is one of the key parts of future planning, however once you have the legal document, you still need to discuss what you would and would not like to happen - an ACP can help with that!

### To Absent Friends Week

Every November Good Life, Good Death, Good Grief promote a week of events to celebrate and remember those who have died. It was great to see so many people taking part and breaking taboos around death.

### Carers Week and Carers Rights Day

We are proud to work alongside fantastic Carer Support services to engage with unpaid carers around future planning both for themselves and those they support. We are looking forward to building on our relationship in 2022!

## New for 2022 ...

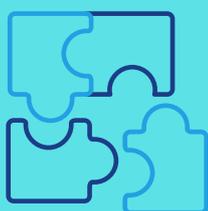

### ACP Standard Operating Procedure

Over the last couple of months we have been adding the final touches to the **APC SOP**, thanks to everyone who has assisted in the development of the 'one stop shop' guide to ACP.

### Post ACP Training Information Booklet

Arriving in your email boxes soon! Look out for our new post training booklet for all Health and Social Care Staff who have completed our **ACP Communication Skills Training**. A handy reminder!

### Bespoke ACP Training and Information Sessions

Last year we dipped our toe into the development of **Bespoke ACP Education** sessions, for example: housing providers, carers, cancer services. If you are interested in ACP training tailored to your service, please email us and we will see what we can do!
