NEW

1 Hour ACP Refresher

We've previously offered our 1 Hour ACP Refresher sessions direct to teams on request. But feel now is a good time to open up these sessions up to all Health and Social Care staff. So if you've completed the e-module and the Communication Skills training a while ago but you think it's time to refresh your ACP knowledge - for example, the new version of ACP on Clinical Portal. See page two for dates.

Important Conversations

See page 2 for our 'Having Conversations That Matter' workshops as part of To Absent Friends Week. An ACP Champions recently said *"it was a great session, it really helped me"*. 'Human Library' - these will be 30min 1:1 sessions available to all staff, giving them a chance to practice having a conversation and get some individual feedback. We still need some help creating patient profiles. If you think you could help, please drop us an email!

Working Together

We are looking forward to continue to develop our partnership working, delivering "Having Conversations That Matter" with the **Spiritual Care Team**, contributing to the 5 Day Palliative Care Course with the **Palliative Care Team** as well as **Glasgow Caledonian's** Supportive Care At End of Life Course. We are also excited to begin delivering the EASE course (End of Life Aid Skills for Everyone) alongside **Good Life Good Death Good Grief**, and support Seasons of Change, a NHSGGC initiative to reflect on loss, grief and bereavement.

to absent friends ...

To Absent Friends festival will take place across Scotland from 1-7 November 2022

We are excited to be contributing to the festival this year with our own offering of events to help staff and the public acknowledge loss and share stories of those who have died.

From Death Cafes to Self-Care we hope there is something for everyone, but we will also be shining a light on events happening across the country celebrating this wonderful festival of story telling.

See **Dates for your Diary** for our events.
