

# Alcohol and Drug Snapshot 2024 -2025

In 2024, we circulated 21 editions of the Alcohol and Drug Health Improvement Snapshot. This year we used different approaches including: special editions for Pride Month and Digital, and 12 Days of Harm Reduction.

The Snapshot provides a range of information including resources, research articles, reports, events, learning and funding opportunities in relation to Alcohol and Drugs.

## 267

people receive the snapshot directly from the Alcohol and Drug Health Improvement Team

Recipients of the snapshot have shared that they have used the information:

- for sign posting
- to increase knowledge
- keep up to date with local service info
- to inform training and development of resources

Snapshots are always in an accessible format that we are comfortable sharing with our wider partners and networks.

I circulate the snapshot to all relevant colleagues and utilise the information at a local level.

I use the information to support the clients who access our service

We have utilised the information in the snapshot to include support information in a family wellbeing resource for parents of young people in Glasgow City
