

Workshop 1

Amber

SLT

- Group Supervision model
- Req more training
- Attendance Issues
- Explore a 1-1 model

What would help?

- Help staff understand the true role of CS and the background to the policy
- Highlight HCPC requirement and statement about engaging in supervision

Physio – 1-1 Model

- Would like to explore cross service group etc

Do we mix bands in group supervision?

- Mix the supervisors from other services to support trust and prevent hierarchy in model
- Never supervise staff that you were with
- Resilience – space to reflect
- Motivation, coaching, goal, conversation
- Opportunity to practice safely would be welcomed as part of training
- Buddy system approach for supervisors would be welcomed too
- Use the NES resources
- All staff to complete elearning module
- Could we document the adhoc conversations – good opportunistic moments! Pick up themes to them, take to next CS session

Training Key – fully supported and valued and resourced
