# Celebrating and Evidencing how we Involve and Engage Patients and Carers

NHSGGC produced their first report providing an overview of engagement and involvement activity carried out by staff with patients and carers. This report allowed teams across the organisation to showcase how they are listening and involving people in services.

The Patient Experience Public Involvement (PEPI) Team is collecting information for the 2022/23 report and would like to hear from teams about the work they have carried out.

Involvement can range from large scale activities, surveys and focus groups to actions resulting from patient feedback and more focused group work with the people you support. If you would like inspiration on what submissions could look like you can see last year's report here: <u>Involvement and Engagement Overview</u> <u>Report 2021/22</u>.

We would like you to share any examples you have been involved in, big or small. You can share any exampled through:

- This MS Forms link: Overview Report Submission
- By emailing public.involvement@ggc.scot.nhs.uk

It would be great to hear from you by 24 March 2023, but if you need more time please get in touch with the team. Similarly, if you have any issues accessing the

form, or want to chat through an example, please get in touch with the PEPI team <a href="mailto:public.involvement@ggc.scot.nhs.uk">public.involvement@ggc.scot.nhs.uk</a>.

## World Down Syndrome Day

Today is **World Down Syndrome Day** so look out for lots of socks!
