\* Community hospitals have low numbers of infections and are therefore reported all together rather than separately. In NHSGGC this covers Dykebar, Gartnavel Royal, Leverdale, Lightburn, Mearnskir, New Stobhill, New Victoria, Parkhead & Ravenscraig Hospitals.

\*\* For the purposes of this report, patients identified within 48 hours of admission with a *Clostridium difficile* Infection (CDI) or *Staphylococcus aureus* Bacteraemia (SAB) will be included as part of the 'Out of Hospital Infections' total. This total will also include infections from community sources, such as GPs, hospices and Care Homes.

Caveat: Please note that this is local data and is likely to differ in case totals in future HPS reports due to changed denominator and reporting criteria.

Data is provisional and subject to change.
