Healthcare associated infections include hospital acquired cases and healthcare associated cases (see HAIRT for full definitions)

Non acute hospitals have low numbers of infections and are therefore reported all together rather than separately. In NHSGCC this covers Dykebar, Gartnavel Royal, Leverndale, Lightburn, New Stobhill, New Victoria & Orchard View (IRH).

** CDI specimens taken in people who are not a hospital in-patient e.g. GP specimens, Care homes, Hospices etc.

Caveat: Please note that this is local data and is likely to differ in case totals in future HPS reports due to changed denominator and reporting criteria.

Data is provisional and subject to change.
