Leading & Learning Together

Key issues for our members

- Policies, processes and outcomes for our members are generally good across NHSGGC
- Like all staff, we want any issues of bullying, harassment, hate crime and homophobia to be dealt with quickly and empathically
- The legal position for trans staff has changed a lot during 2025 and 2026 and we continue to provide support to them
- We want all staff to have the confidence to be out and proud in NHSGGC. Representation matters and we know that not all staff feel able to be themselves at work.

Our impact

- Celebrates diversity and fosters collaboration within and beyond NHSGGC.
-
- Supports and connects LGBT+ staff and allies.
-
- Influences organisational policy and practice.
-
- Promotes equality, inclusion and visibility.
