Glasgow Royal Infirmary  
84 Castle Street  
Glasgow  
G4 0SF

Direct Line 0141 211 4911/0578

You have recently been referred to the Glasgow Royal Infirmary Liver clinic.

To fully investigate your liver condition you require two initial appointments. The first of these is with one of our Liver Disease Nurse Specialists, this appointment date and time has been enclosed.

This appointment will take place in Walton Liver and GI Centre, Ground Floor, Walton Building, Castle Street Glasgow G4 0SF. The Walton building can be accessed from the link corridor, then taking the lift to the ground floor. To help you a map has been included. Your appointment will last around 30 to 45 minutes.

At this clinic one of our Liver Nurse Specialists will ask you some questions and take the blood tests requested by your consultant. This ensures your consultant has the results he/she needs to discuss your liver condition when they see you at your second appointment.

Depending on the likely cause of your liver problem you may also undergo a liver fibroscan at this appointment. **Please do not have anything to eat or drink other than water for a minimum of 2 hours before their appointment.** A leaflet has been enclosed to explain a fibroscan

**PLEASE NOTE - If you do not attend the above appointment then your appointment with the liver consultant will be cancelled.**

Glasgow Royal Infirmary looks after a large number of patients with all types of Liver Disease. In order to help us provide the best care possible to all, we ask that you give as much notice as possible if cancelling your appointment. This allows us to use the appointment for another patient.

**If you wish to cancel or change your appointment, please telephone 0141 211 4911 as soon as possible.**

Yours sincerely
