

## **2.9 NHSGGC Mental Health in patient Core Audit Standard 5 for Food, Fluid and Nutritional Care:**

Within all NHSGGC mental health inpatient wards a Core Audit Nursing Standard on Food, Fluid and Nutritional Care is measured in order to maintain a focus on a high standard of nutritional nursing care, it is recommended that the core audit schedules focus on the standards which support individual practitioners and teams in delivering high quality nutritional nursing care.

Compliance to this core audit Mental Health Food, Fluid and Nutrition (FFN) Care Standard is reviewed regularly in conjunction with clinical effectiveness and this ensures that NHSGGC mental health in patient ward settings are being measured in accordance with the Healthcare Improvement Scotland (2014) Clinical Food, Fluid and Nutritional Care Standards.
