

MACULA TRIAGE CLINIC

**You have been referred to the hospital for assessment of
your eye problem**

**In order to help the doctor decide how urgently you need to
attend the eye clinic, an assessment appointment has been
made for you to get scans of the back of your eye.**

**As part of this examination we will need to put drops in your
eyes to dilate your pupils, This may leave you with blurred
vision for up to 4 hours, therefore do not drive yourself to
the appointment – please make sure that you have
arrangements in place for transport to and from the
hospital.**

**Within a few days of this appointment, the doctor will
review your scans. You will then be sent another
appointment to attend the eye clinic based on how urgently
your eye condition needs to be treated.**

If you have any queries please call the macula Co-ordinator
