Eyedrops Leaflet

As part of this examination the consultant may need to put drops in your eyes to dilate your pupils. This may leave you with blurred vision for up to 4 hours. Therefore, do not drive yourself to your appointment.

Please make sure that you have arrangements in place to transport you to and from your appointment.

You must bring with you, your glasses and a list of all mediation which you are currently taking.

Please be aware that you may be in the department for anything up to 3 hours.
