

SafeCare Analysis

A detailed report comparing required versus actual staffing, RAGG patterns, Professional Judgement activity, and staffing variances over time.

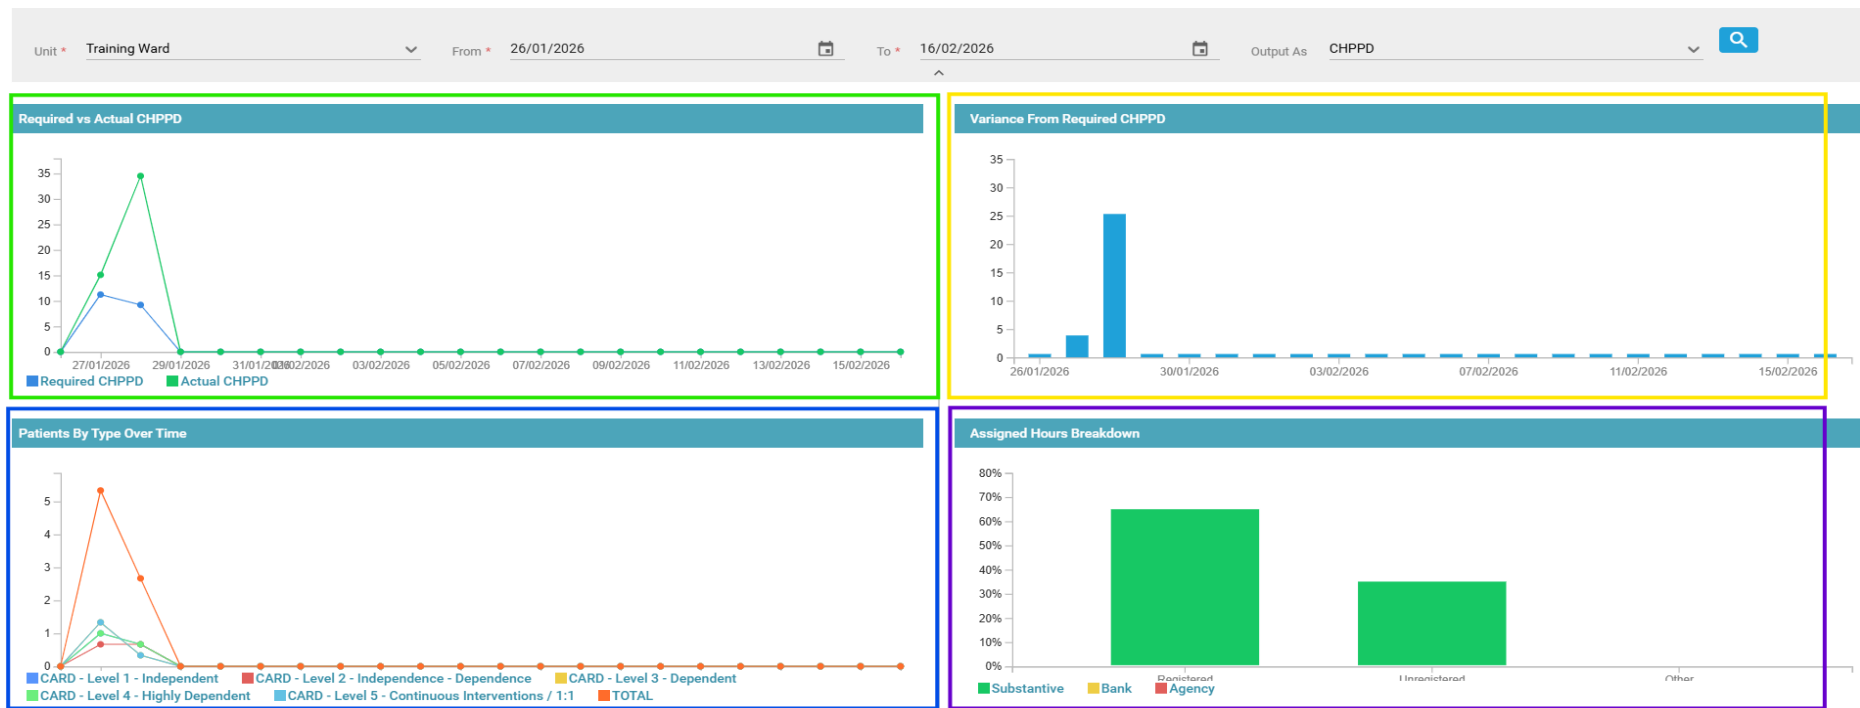

- Navigate to **SafeCare > SafeCare Analysis**

- Input the Unit and Dates you want to run the analysis for. You can choose the output your Care Hours Per Patient Per Day or Hours. Click the finder.

- The Analysis will return as below

- ❖ The graph highlighted in green displays Required CHPPD vs Actual CHPPD for each day within the date parameters requested
- ❖ The graph highlighted in yellow displays Variances from Required CHPPD for each day within the date parameters requested
- ❖ The graph highlighted in blue displays Patient by Type Over Time for each day within the date parameters requested
- ❖ The graph highlighted in Purple displays the Assigned Hours Breakdown for Substantive, Bank and Agency staff
