

Free Online Communication Skills Workshops

SAGE & THYME workshops are free for a limited time and support all care home staff in using the evidence based skills required to provide person-centred support to residents and relatives with emotional concerns or worries.

Using a memorable structure, the 2 hour 45 minutes online workshop reminds staff how to listen, and how to respond to distress in a way which empowers the resident or relative.

Using a mixture of group work, lectures and videos, the workshop discourages staff from 'fixing', and demonstrates how to work with the residents' or relatives own ideas and solutions first.

To register for a SAGE & THYME workshop you need to have individual access to a PC/laptop/tablet with a camera and microphone for the full duration of the workshop. Smartphones are not suitable for this workshop.
