

Free Online Communication Skills Workshops

SAGE & THYME workshops support all clinical and non-clinical staff in using the evidence-based skills required to provide person-centred support to people with emotional concerns or worries. Using a memorable structure each **2 hour 45 minutes** online workshop reminds staff how to listen, and how to respond to distress in a way which empowers the patient. The workshops discourage staff from 'fixing' and demonstrates how to work with the patient's own ideas and solutions first. Each workshop uses a mixture of small group work, lectures and videos.

To register for a SAGE & THYME online workshop you must:

- Work in health or social care
- Have access to a PC/Laptop/Tablet with a webcam and microphone (**Smartphones are *not* suitable**)

This training is open to all and is **free** for staff who work within NHS Greater Glasgow & Clyde (including hospitals, primary care, Health & Social Care Partnerships (HSCP), hospices and care homes). For all others there is a **fee** of £40.00 per person.
