Programme Manager
Screening Department

Scottish Cervical Call Recall System (SCCRS)

- Access to the SCCR application
- Reminder of the Call and Recall Process
 - Direct Referral
- Implementation of HPV as the Primary Screening Test
- SCCR Issues
- Access to SCCR reports
- How to view laboratory comments
- Immunosuppressed patients
- Change process
- Questions

Access to SCCRS

- Requesting a username and password
 - Proxy Users – When do you need this?
 - Turnaround times of usernames and passwords
 - SCCRS user application form (incl in pack)
 - If you work across various practices do not use the same username unless you are set up as a mobile user.
 - Mobile users can only be set within an individual Board location.

SCCRS Training

- Cascade training
 - Within your smear taking location
 - IT Mentoring Team
 - Screening Department

Reminder of the Call and Recall Process

- Women are eligible to be invited on SCCRS
 - once they are 25 years old (or earlier if in SCCRS prior to 6th June 2016) up to the age of 64 if they are routine and up to the age of 70 if they are non-routine
 - or their call date matures from a previous smear
 - or an exclusion status has closed.
- If a woman does not present for cervical screening they will be given another 2 or 3 reminders until they go to default status – known as defaulters.
- Defaulters are excluded from call and recall for a period of 51 from date of last reminder.
- If a woman attends for cervical screening during the call and recall process the SCCRS application will re-invite when due based on the new recall date of the reported result.

Direct Referral process

- When does this happen?
 - A referral is only actioned from a reported cervical smear test and only if the smear test did not originate from Colposcopy.
- What is the process?
 - SCCRS sends the reported result to SCI Gateway. This Gateway referral is picked up and actioned by a central appointing team at Glasgow Royal Infirmary who will offer or appoint to the various colposcopy sites across NHS GG&C.

How to determine Screening Eligibility now that CARAF has been implemented.

- If you are unsure if a woman is entitled to be screened check the following:-
 - Can you access her record on SCCRS? – If **Yes** then she is eligible. If **No** then she is ineligible to be offered screening.
 - If a woman has received communication from the SCCRS programme – prompts and reminders are issued because she is eligible to be offered screening. The date registered on SCCRS will be before 6th June 2016.

Transgender Patients

- Male to Trans Female
 - As the record has been created as a Female she will be called in accordance with the age eligibility criteria.
 - If clinician wishes to remove from call and recall No Cervix should be chosen as an exclusion

Transgender Patients (contd)

- Female to Trans Male
 - If the female record already existed in NHS Scotland an indicator is available for SCCRS to identify eligibility for screening once PSD change the sex to Male.
 - If the patient moves in as a Trans Male and has not been known to NHS Scotland previously as a female the smear taker will need to advise the Screening Department to bring the record into SCCRS if the Trans Male patient has to be offered screening.

HPV as the Primary Screening Test

- HPV will be used as primary screening
 - Cytology will only be used if HPV result is positive, it's a 3rd Fail or the participant is in a pathway that requires cytology and HPV testing.
 - No change to the smear taking process.

SCCRS - Issues

- IT Security
 - Usernames and passwords being shared.
- Opted Out Exclusion
- Alert – vial not received by laboratory
- **Out of Date Vials being used**
- Exclusion statuses – No Cervix and NFRrecall
- SCCRS not being used as a primary source for cervical cytology information.
- Reports not being reviewed regularly
- Reviewing laboratory comments
- Immunosuppressed women

Immunosuppressed Patients

- Only HIV+ women are classed as immunosuppressed for the purposes of cervical screening.
- HIV+ women require annual recall if they have had a negative result reported.
- HIV+ women will be called annually even if they default from screening.

Access to SCCRS reports

How to access reports

The screenshot shows the SCCRS Smear Taking web application interface. The browser title is "SCCRS Smear Taking - Microsoft Internet Explorer". The address bar shows the URL: <http://sccrsuat.nds.scot.nhs.uk/SCCRSUAT/SmearTaker/Forms/home.aspx>. The page header includes the NHS Scotland logo and the text "sccrs smear taking". The user is logged in as "e. rennie gp" on behalf of "1000 - muirhead medical centre". The password expires in 362 days. The navigation menu includes: home, person, results, _practice, requests, alerts, logoff, NHS tips, NHS 24, nsd, and help.

There are two search boxes:

- Person Quick Find**: Input field for "chi number" with a "GO!" button.
- Request Quick Find**: Input field for "request id" with a "GO!" button.

The "Most recent alerts" table is as follows:

Created Date	Expire Date	Alert	Remove
01 Aug 2012	31 Aug 2012	rct created	
16 Jul 2012	31 Aug 2012	vial not received by laboratory - 1056043564	
16 Jul 2012	31 Aug 2012	vial not received by laboratory - 1056044356	
16 Jul 2012	31 Aug 2012	vial not received by laboratory - 1056044021	
27 Jul 2012	31 Aug 2012	patient has a non-routine result - 0101608705 (smear taker - pt gp tayside)	

At the bottom right of the alerts table, there is a link for "all alerts".

The browser's taskbar shows the following open applications: QuickAddress Pro, MetaFrame XP, SCCRS Smear Ta..., Inbox - Microsoft..., and Microsoft PowerP... The system clock shows 17:16 on 8/16/2012.

Achievement Reports

Select Report parameters

The screenshot displays a web browser window titled "WBU Reports - Microsoft Internet Explorer". The address bar shows the URL: <http://sccrsuat.nds.scot.nhs.uk/WbuReports/forms/WbuReports.aspx?Query=XCMrHLQgaF.JIZ2CKn3ZIkY6Y.08Go7XUSioYlg.kEfiRi1LkN3AAyGrGMrXR;>. The page content includes the NHS Scotland logo and the text "sccrs smear taking". A central form titled "Cytology Practitioner Achievement Forecast/Confirmed Notification" contains the following parameters:

Parameter	Value
Year	2011
Quarter	1st Jan 12
Report Categories	Forecast
Report Types	Please Select...

A "find" button is located at the bottom right of the form. The browser window also shows a taskbar at the bottom with various open applications, including "QuickAddress Pro", "MetaFrame XP", "SCCRS Smear Ta...", "WBU Reports - Mi...", "Inbox - Microsoft...", "Microsoft PowerP...", and "Document1 - Mic...". The system clock shows 17:17.

Select report type

The screenshot shows a Microsoft Internet Explorer browser window displaying the 'WBU Reports' page. The page title is 'sccrs smear taking'. A form titled 'Cytology Practitioner Achievement Forecast/Confirmed Notification' is visible, with the following fields:

Year	2011
Quarter	1st Jan 12
Report Categories	Forecast
Report Types	Please Select...

The 'Report Types' dropdown menu is open, showing the following options:

- Please Select...
- CPANS04 - Practice Summary
- CPANS05 - Practice List-Excluded & Tested Satisfactorily
- CPANS06 - Practice List-Not Tested
- CPANS07 - Practice List-Tested Unsatisfactorily
- CPANS08 - Practice List-Achievement Correlation

The browser's address bar shows the URL: <http://sccrsuat.nds.scot.nhs.uk/WbuReports/forms/WbuReports.aspx?Query=XCMrHLQgaF.JIZ2CKN3ZIkY6Y.08Go7XUSioYlg.kEfiRi1LkN3AAyGrGMrXR;>

Standard Reports

How to access laboratory comments on reported results

The screenshot shows a web browser window titled "SCCRS Smear Taking - Windows Internet Explorer provided by NHS Greater Glasgow and Clyde". The address bar shows a URL starting with "http://ccrsuat.linds.scot.nhs.uk/SCCRSUAT/SmearTaker/Forms/NewCCR.aspx?encryptLrFD=39/fhzZap5q7Rj7Eh4h6k...". The page header includes the NHS Scotland logo and the text "sccrs smear taking". Below the header, there is a navigation menu with links for "home", "person", "results", "practice", "requests", "alerts", and "logoff". A secondary menu contains "find", "changes to age range and frequency information", "tips", "nsd", and "help". The main content area displays patient information for "ONE EIGHTA, UAT" on "01 May 1963" at "NINEWELLS HOSPITAL, PO BOX 120, DUNDEE, DD1 9SY". A "request 1056118593 Authorised" section is visible, with a "demographic" tab selected. Below this, there are four tabs: "location", "smear", "laboratory", and "laboratory result". The "laboratory result" tab is highlighted in blue. At the bottom right of the patient information section, there are "print", "label", and "back" buttons.

Select the tab that states **Laboratory Result**

How to access laboratory comments on reported results

The screenshot displays the SCCRS Smear Taking web application interface. The page is titled "request 1096118993 Authorised" and shows a navigation menu with options like "demographic", "location", "smear", "laboratory", and "laboratory result". The main content area displays the following information:

- Cytology Recall Advice:** Referred to Colposcopy
- Cytology Result Type:** High grade dyskaryosis ? invasive
- Infections:**
- Cytology Report:** (Empty text box)

At the bottom right of the main content area, there are buttons for "print", "label", and "back".

Any clinical comment the laboratory has entered when reporting the result will be visible in the **Cytology Report** box above. If a smear has been reported as Unsatisfactory the Laboratory should always provide a reason. If no reason is provided contact the Laboratory for more information.
