

Safety Health and Wellbeing Culture Framework – Joint Statement

The Corporate Management Team and the Area Partnership Forum have reinforced our joint commitment towards improving the Safety, Health and Wellbeing culture within NHS Greater Glasgow Clyde, through the development of our Safety, Health and Wellbeing framework.

It is important to support our people to Make Safety Personal for ourselves and each other allowing all of us to go home safe, healthy and well. This is a personal and collective investment by everyone which will support the delivery and application of the arrangements within the framework.

There are five supporting strands that position our ambition within the Safety, Health and Wellbeing framework. These are underpinned by our values and our Safety, Health and Wellbeing Roadmap supports that journey.

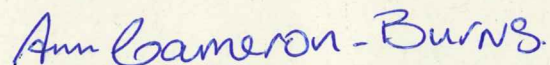

Although this framework focuses on Safety, Health and Wellbeing, the actions are intrinsically linked with our Workforce Strategy and Investors in People programme.

We are a caring workforce community, committed to providing exemplar patient care, safely. Your Safety, Health and Wellbeing is important to all of us and we commend the framework as a way to help deliver and continually improve our Safety, Health and Wellbeing Culture within NHS Greater Glasgow Clyde.
