Keeping You Informed

At NHSGGC Nursing & Midwifery Staff Bank we are continuing to look at different ways to keep you informed about what might be important to you regarding working at NHS Greater Glasgow and Clyde. **The Staff bank is now live on NHSGGC web site and you can access information via NHS GGC website or HR Connect: [Nursing and Midwifery Staff Bank - NHSGGC](#)**

This can be accessed from any computer, laptop, tablet or smart phone and is ideal for all bank nurses. It enables you to gain access to up to date information regarding professional and practice, news and events and Covid-19 information.

We will continue to send out a regular Newsletter on a monthly basis which will include all news, updates and information to keep you as informed as possible.

From our previous survey we received valuable insights from staff and we will use your feedback to implement changes that positively impact our service.

We will be sending out a further survey to all Bank Staff and this will be an opportunity to provide further feedback and to raise any concerns.

2022 Pay Arrears

The new Agenda for Change pay rates were recently issued by the Scottish Government which are effective from 1 April 2022.

As the new rates of pay are effective from 1 April 2022, there are now nine months or forty weeks of arrears of pay due, and Payroll Services have started working on these with the aim of making payment for all weekly paid Bank Staff on Friday 24th February 2023.

THANK YOU!

I would like to express my sincere gratitude for all of your hard work and dedication during another challenging winter. The shifts you work are making a real difference and I am truly grateful for your ongoing support. Thank you in particular if you have agreed to support our additional services over the winter.

These past (almost!) 3 years have been challenging for everyone, but your resilience, compassion, and commitment to your patients have been truly inspiring. It is because of your dedication and hard work that we have been able to provide the highest level of care to those who need it most.

Thanks again,
