

## **Syncope (blackout) Clinic**

You have been given an appointment to attend the Syncope Clinic. This clinic is for people who have had a blackout.

Your appointment will take place at:

**Clinic Area G, First floor, Queen Elizabeth University Hospital, 1345 Govan Road, Glasgow G51 4TF.**

The clinic is run by Dr Lara Mitchell and Dr Lesley Anderton. We are consultant physicians with a specialist interest in syncope. We also specialise in geriatric medicine, but this clinic is for adults of all ages.

At your first appointment, you may have an ECG (heart tracing) if you have not had one recently. You will then spend around 30 minutes with the doctor, who will talk with you about your symptoms and carry out an examination. If you have had any tests before your appointment, we will discuss the results with you.

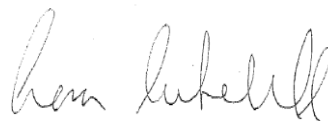

It can be helpful for us to speak to someone who has seen you blackout. If possible, please bring their phone number, as we may wish to speak to them during your appointment.

If you have any questions, or if you are unable to attend, please contact our secretary, Linda Boyle, on 0141 201 2376.

We look forward to seeing you.

Dr Lesley Anderton
