

Medical Records Department

Dear Sir/Madam

**FLOW STUDY AND POST VOID BLADDER SCAN**

It is important that your bladder is **FULL** for this test. Therefore please empty your bladder 1 hour and 15 minutes before your appointment time, and then **drink 1½ pints** of any fluid.

**PLEASE DO NOT EMPTY YOUR BLADDER AGAIN UNTIL YOU COME TO THE CLINIC AND ARE CALLED FOR YOUR FLOW STUDY.**

If you need to empty your bladder before you are called please speak to the receptionist, who will call the nurse.

Yours sincerely

Sister Davina Taylor

Urology Nurse Practitioner
