

IPCT Urethral Urinary Catheter (UUC) Care:
Prevalence tool for compliance with UUC care plan*

Sector	
Hospital	
Ward	
Specialty	
Date and time of audit	
No. of patients in ward at time of audit	
No. of patients in ward with indwelling urinary catheter insitu at time of audit	
No. of patients with an indwelling urinary catheter, with a care plan which is in use and up to date (Review up to last 7 days of care only)	
% compliance with urinary catheter care plan **	
If not complete, which sections of the care plan are incomplete	
Reason why sections of care plan not complete	
Feedback provided to	
Actions agreed by ward staff to improve care plan completion	

NB: * For paediatric patients the catheter care section of the Active Care Plan should be complete

** % compliance can be calculated by dividing the number of patients with a catheter and a care plan in use and fully completed by the number of patients with a catheter x 100.
