# VMT Guidance for Registrant / Screener / Vaccinator Model
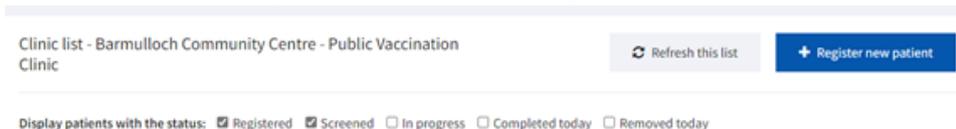

Clinic Check In

Ensure you are checked in at the correct clinic. You can check this at any point:
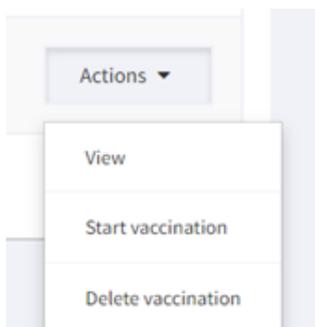

- My details
- My current clinic

Using the Clinic List for Vaccination

Select the first two options on clinic list: *Registered and Screened*

Following registration and screening, always use the clinic list to **'Start Vaccination'** rather than **'Register New Patient'**

Check the clinic list regularly by selecting the first three options (Registered, Screen & In Progress) to show any current incomplete records for clinic.
