

15/08/2025

Dear Colleague,

Withdrawal of Ethylene Oxid Allergy Test

We have been advised by our Managed Service Contract supplier that the reagent used for specific IgE to Ethylene Oxid has been withdrawn as a result of their portfolio maintenance processes.

There is no alternative reagent provided, so unfortunately this means we will be unable to accept requests for ethylene oxid from 31/10/25. The request will be removed from Trakcare from November 2025.

I apologise for the inconvenience this may cause. For any enquires regarding specific IgE to ethylene oxid, please continue to contact the Duty Immunologist either by email (ggc.immunology.labs@nhs.scot) or by telephone (0141 347 8872 or internal extension 68872).

I would be grateful if you could share this letter with colleagues and contact us if you have any further questions.

Best wishes,

Sylvia Arthur
Laboratory Manager
Immunology & Neuroimmunology Laboratory
